Subject: Update/Action Request from Bob K. on East Chicago

(Anne and I were writing our e-mails at the same time – she’s just a much better typist!)

Hey Everybody:

Bob just got off a phone call with the Mayor of EC. The Mayor was very energized on several issues, but his primary concern was that he thought it might be premature to notify the residents about the Pb results at this time. Bob explained why notification was important and timely, and after some discussion, the Mayor came around to agreeing that notification was OK, but he was very concerned that EPA , IDEM, and EC “all be on the same page” with regard to the data, messaging, etc. That’s the update.

As for the action request, as Anne said, we need to re do the tick-tock, and Bob would like staff discussions to occur between EPA, IDEM, and EC tomorrow (and if necessary, Thursday) to make sure all three parties are on the same page about the lead information that will shortly be going out to homeowners.

So, **Rita**, can you please check with Mary to see if IDEM can make some time available tomorrow? **Miguel**, can you please check in with Greg Crowley from the City and check on the same thing? Ideally, I’d like to have an individual call with IDEM, have an individual call with the City, and then have a quick call with all three Parties to button things up.

Finally, to my knowledge we’re still waiting on a response from HQ to Bob’s Qs about more general information and guidance we can provide to other EC residents, press, etc., after the

initial notification to the homeowners.

Thanks.

Chris
